Tumble Classes end with a Parent Observation/Awards Ceremony at the end of May! In May the tumble students receive extra classes/extended times along with the Parent Observation.

Once a tumble student accomplishes one tumble skill, the tumble student starts working on the next skill without having to wait for the entire class to accomplish a specific skill to move on. Warm Up/Stretch is done together.

Once a tumble student accomplishes a certain amount of skills throughout the year, the student may receive an invitation to join a Tumble Team the next year. Invitations are handed out in April with the Requirements.
